Objective

I am seeking a challenging fullstack position where I can apply my skills. Eager to contribute to a dynamic team, solve complex problems and continually enhance my coding expertise

Professional Summary

Bachelor in Defense and International Strategic Management, Master in Communication and Semiotics and with a strong foundation in strategic planning, conflict resolution and people management. I can bring a unique blend of analytical and creative thinking to programming roles. Committed to leveraging my programming and social skills to drive success in a collaborative and innovative tech environment.
